THIS IS UNEVALUATED INFORMATION

50X1-HUM

Fritz Selbmann, Minister of Metallurgy and Ore Mining, on 29 July 1962 informed Perelivchevskiy (fnu), Deputy Chairman of the Soviet Control Commission in Berlin-Lichtenberg, of several Soviet proposals relating to the Ministry. Selbmann stated that he was doing this as a result of a decision taken by the Sub Central Committee. The changes are as follows:

- a) (Fna) Goschütz has become State Secretary in the Ministry.
- b) Dr. (inn) Arzner has been relieved as director of the Hauptabteilung Eisenindustrie and is now chief of the Central Construction Office of the metallurgical industry.
- c) Rudi Steinward, former director of Maschinen-Unternehmen, has assumed Arzner's position.
- d) Sanns Enghardt has become chief of Hauptabteilung Erzebergbau; Enghardt was director of the Administration of the Non-Ferrous (Nichteisenmetall) Metal Industry and, previous to that, held the position of chief director of VWS Eisenmetall.
- e) Adolf Buchholz has been appointed by the Secretariat of the 2nd Central Committee to replace Steinward. Buchholz was formerly political director (Kommissarisches-Direktor) of RKO.
- f) Hermann Fenske, formerly a Hauptabteilungsleiter in the ministry, has been named to be director of RKO.
